

MAJOR ITEM APPEAL

AUGUST, 2011

RE-
MEMBER

PORTABLE AIR COMPRESSOR

Re-Member is seeking funds and/or a donated air compressor capable of supporting air tools (primarily roofing nailers.)

DEWALT 4.5 gallon 200 psi Portable Electric Compressor (Model: D55141)

The DEWALT 4.5-Gallon Portable Electric Air Compressor has pneumatic wheels for easy transport around a job site. The compressor can be used to support roofing and framing nailers. The air compressor's vertical orientation saves storage space, and its steel construction is durable. With a low operational-noise level, the air compressor delivers a quiet work environment.

DEWALT 7.5 gallon 175 psi Portable Electric Compressor (Model: D55371)

With a 7.5-Gallon tank, a 4.6 SCFM 100 psi pump enables more nails to be fired and provides quicker recovery. Durable 2-Stage sealed lube pump provides extended maintenance free operation without oil contamination. Automotive style air intake filter protects pump from jobsite dirt and other contaminants.

DEWALT 15 gallon 200 psi Portable Electric Compressor (Model: D55168)

The DEWALT 15-Gallon Portable Electric Air Compressor is ideal for multi-tool use. The air compressor features a strong 1.8 HP electric engine and a durable steel tank. The air compressor's pump is oil- and maintenance free for convenience. Automatic start/stop operation and a dual-purpose handle make the air compressor easy to use.

60+ GALLON COMPRESSOR (STATIONARY)

Please contact Director Ted Skantze directly if you would like to contribute to a stationary compressor. Ted will provide specs for this item.
